**QUESTION 1**

A vendor is offering a rebate program on bottles of wine that have purchase orders placed within a month. There is a \$5.00 rebate on the purchase of 10-100 bottles and \$6.00 rebate for the purchase of 101-200 bottles. Customers can purchase wine by the bottle or by the case. Discounts apply to all varieties of wine sold by the vendor.

You need to create a vendor rebate agreement to ensure that the correct rebate amount is claimed at the end of the month.

Solution: On the rebate agreement, set the start date to be the first of the month. set the expiry date to be 30 days.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

---

**QUESTION 2**

You are making use of planning optimization in Dynamics 365 Supply Chain Management.

When a planning optimization job, which is configured with the wrong runtime filters, is accidentally triggered from the user interface, you are tasked with fixing the problem.

Which of the following actions should you take?

A. You should access the plan history to cancel the job.

B. You should access the dialog box to cancel the job.

C. You should access the plan history to rectify runtime filters.

D. You should access the dialog box to rectify runtime filters.

Correct Answer: A

Reference: <https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/planning-optimization/cancel-planning-job>

**QUESTION 3****HOTSPOT**

You need to configure automatic warehouse inventory replenishment for items.

How should you complete the setup? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

The screenshot shows the Dynamics 365 interface for 'Warehouses'. The left-hand pane lists several warehouses, with '12 Site 1 - WIP' selected. The main area displays the 'Warehouse Options' form for this warehouse. Under the 'Master planning' section, there are three dropdown menus: 'ITEM COVERAGE' (set to 'Manual'), 'MAIN WAREHOUSE' (set to 'Refilling'), and 'Main warehouse' (currently empty). The 'Main warehouse' dropdown menu is open, showing a list of options: '11 Site 1 - Raw Materials', '12 Site 1 - WIP', '12-801', and '12-802'. The 'Warehouse level' is set to '2'.

Correct Answer:

This screenshot is identical to the previous one, but the 'Main warehouse' dropdown menu is now set to '11 Site 1 - Raw Materials', which is highlighted in green in the dropdown list.

**QUESTION 4**

DRAG DROP

A company uses Dynamics 365 Supply Chain Management. The company purchased a high-tech machine that cuts production time in half compared to existing machines.

The new machine must be serviced after 200 finished goods are produced. Downtime for the new machine will impact production and must be planned in advance so the production lead times are adjusted. The service technicians must always

prioritize the new machine repairs over any other repairs.

You need to configure the new machine to prioritize servicing over other repairs.

What should you configure for each requirement? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between

panes or scroll to view content

NOTE Each correct selection is worth one point

Select and Place:

**Configurations**

Delays	Asset criticality
Asset counter	Condition assessment

**Answer Area**

**Requirement**

Service the new machine after 200 finished goods are produced.

Ensure service technicians prioritize the new machine repairs.

Correct Answer:

### Configurations

Delays	
	Condition assessment

### Answer Area

#### Requirement

Service the new machine after 200 finished goods are produced.

Ensure service technicians prioritize the new machine repairs.

### QUESTION 5

DRAG DROP

A distribution company uses Dynamics 365 Supply Chain Management

Users in the warehouse must have the ability to create process transfer orders from a mobile device.

You need to complete setup.

Which areas should you configure?

Select and Place:

Areas	Prerequisite	Area
Warehouse management setup	Process warehouse app events.	<input type="text"/>
Feature management	Create transfer orders from the warehouse app.	<input type="text"/>
	Confirm outbound shipments from batch jobs.	<input type="text"/>
	Configure the mobile device menu item.	<input type="text"/>

Correct Answer:

**Areas**

Warehouse management setup

Feature management

**Prerequisite**

Process warehouse app events.

Create transfer orders from the warehouse app.

Confirm outbound shipments from batch jobs.

Configure the mobile device menu item.

**Area**

Feature management

Warehouse management setup

Warehouse management setup

Feature management

**QUESTION 6**

A company plans to run their profit and loss statements by using the site storage dimension.

If the site is changed on sales order, purchase order, or other source document, a mismatch is created between financial and storage dimensions. This leads to incorrect profit and loss reporting.

You need to ensure that the financial dimension updates when the site storage dimension changes.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Lock the dimension link.
- B. Associate the financial dimension hierarchy with the storage dimension hierarchy in the organization chart.
- C. On the storage dimension site setup screen, select Default inventory status ID.
- D. Associate the site storage dimension with the site financial dimension.
- E. Activate the dimension link.

Correct Answer: ADE

Reference: <https://docs.microsoft.com/en-us/dynamicsax-2012/appuser-itpro/configure-and-manage-financial-dimension-links-to-sites>

**QUESTION 7****SIMULATION**

You are a functional consultant for a company named Contoso Entertainment System USA (USMF).

You plan to manage safety stock level.

You need to configure a minimum stock level of 1,500 units for an item named StandardSpeakerUpSel in warehouse number 13.

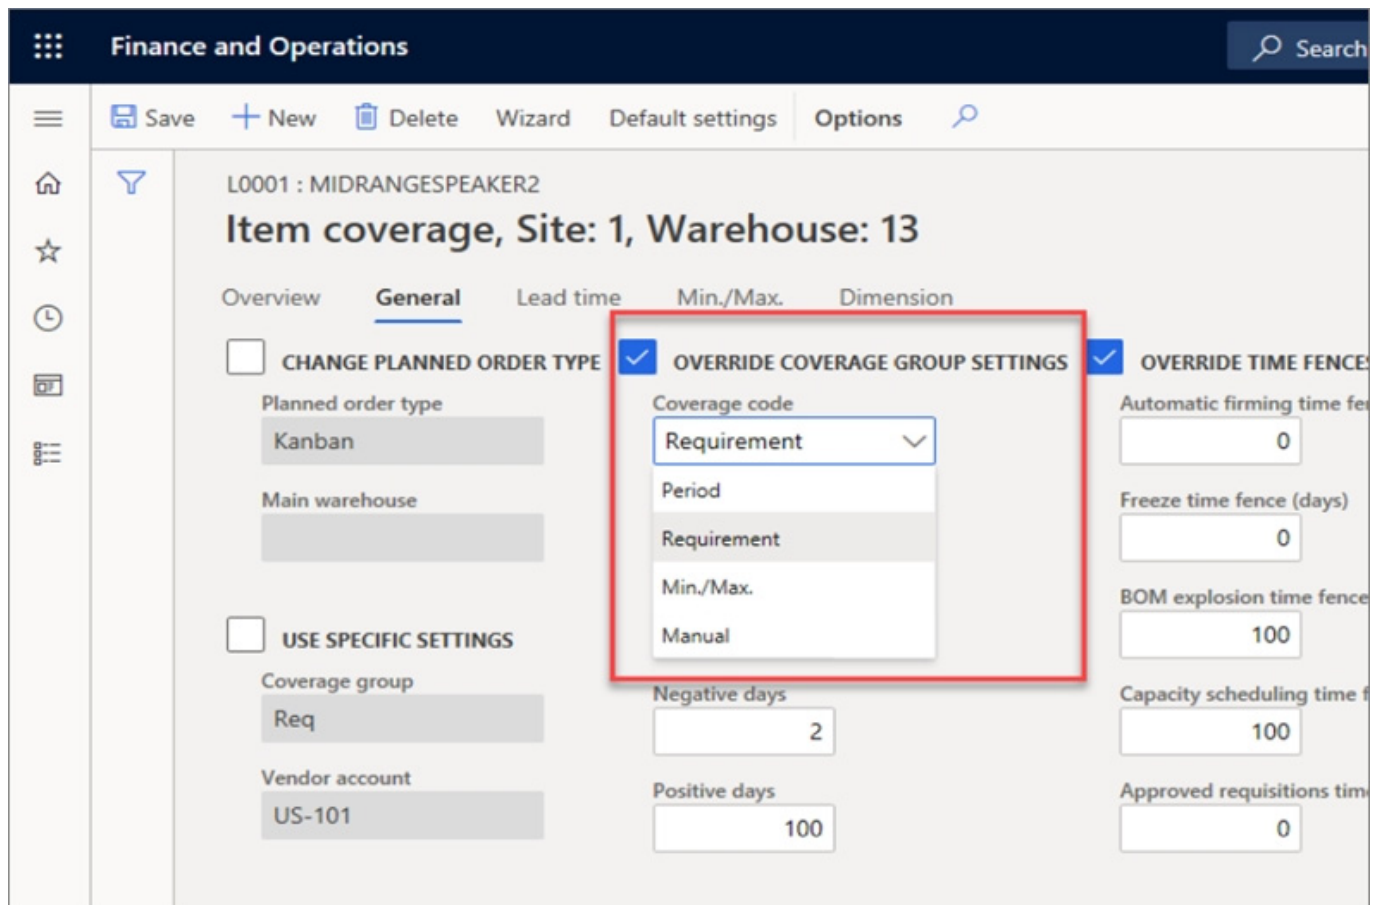

To complete this task, sign in to Dynamics 365 portal.

Correct Answer: See explanation below.

Select Product information management > Products > Released products and then select the product (StandardSpeakerUpSel), and then on the Action Pane, in the Plan tab, in the Coverage group, select Item coverage to open

the Item coverage page.

Select Min/Max in for the Coverage code and enter the value 1,500 for the Minimum value.

### QUESTION 8

Employee1 must set up the new BOM.

Which three actions should Employee1 perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Create a new BOM for Store1, Store2, and Store3.

- B. Activate the BOM.
- C. Add the raw materials to the BOM and approve the BOM version.
- D. Add the raw materials to the BOM and approve it.
- E. Create a new BOM for Site1 only.

Correct Answer: BCE

Reference: <https://docs.microsoft.com/en-us/dynamics365/supply-chain/production-control/bill-of-material-bom>

### QUESTION 9

#### HOTSPOT

A manufacturing company uses Dynamics 365 Supply Chain Management. The company plans to move to the new Planning Optimization functionality.

Several processes are no longer operating as expected.

You need to identify any missing functionality and the number of records impacted.

Which tool should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

#### Answer Area

##### Requirement

##### Tool

Identify any missing functionality.

Dynamics 365 batch job history
Lifecycle Services Upgrade analysis
Planning Optimization Fit analysis
Planning Optimization planning run logs

Identify the number of records from previous runs that were impacted by the missing functionality.

Lifecycle Services Issue search
Lifecycle Services Upgrade analysis
Planning Optimization Fit analysis
Planning Optimization planning logs

Correct Answer:

## Answer Area

### Requirement

### Tool

Identify any missing functionality.

Dynamics 365 batch job history
Lifecycle Services Upgrade analysis
Planning Optimization Fit analysis
Planning Optimization planning run logs

Identify the number of records from previous runs that were impacted by the missing functionality.

### QUESTION 10

A company with two legal entities uses Dynamics 365 Supply Chain Management. You are creating new products and learn that CompanyA plans to use Warehouse management (WMS) but CompanyB will not.

Each storage, tracking, and production dimension name and configuration must be identical in each company.

You need to set up the dimensions that affect the WMS for the new products.

Which two actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Assign a tracking group to the product and release it to both companies, changing one tracking group after release.
- B. Leave storage group blank on the product and assign after release to both companies.
- C. Assign storage group to the product and release to both companies, changing one after release.
- D. Create a product master and assign configuration technology.

Correct Answer: AB

Explanation:

WMS is determined by the storage dimension group. If the storage group is at the product level, the group will be the same for both companies. Which will result in WMS for both or Non-WMS for both depending on the configuration of the

group assigned at the product level.

### QUESTION 11

#### HOTSPOT

A client uses master planning in Dynamics 365 Supply Chain Management.

The client wants to make sure that the item coverage groups are configured properly.

You need to validate the configurations.

Which configurations should you validate for each scenario? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

### Answer Area

Scenario	Configuration				
Define system-generated replenishment suggestions for up to a specified number of days.	<div data-bbox="842 1021 1437 1066">▼</div> <table border="1"><tr><td data-bbox="842 1066 1437 1099">coverage time fence (days) field</td></tr><tr><td data-bbox="842 1099 1437 1133">receipt margin added to requirement date</td></tr><tr><td data-bbox="842 1133 1437 1167">issue margin</td></tr><tr><td data-bbox="842 1167 1437 1218">positive days</td></tr></table>	coverage time fence (days) field	receipt margin added to requirement date	issue margin	positive days
coverage time fence (days) field					
receipt margin added to requirement date					
issue margin					
positive days					
Specify the delivery past due threshold.	<div data-bbox="842 1245 1469 1290">▼</div> <table border="1"><tr><td data-bbox="842 1290 1469 1323">positive days</td></tr><tr><td data-bbox="842 1323 1469 1357">negative days</td></tr><tr><td data-bbox="842 1357 1469 1391">issue margin deducted from requirement date</td></tr><tr><td data-bbox="842 1391 1469 1442">receipt margin added to requirement date</td></tr></table>	positive days	negative days	issue margin deducted from requirement date	receipt margin added to requirement date
positive days					
negative days					
issue margin deducted from requirement date					
receipt margin added to requirement date					

Correct Answer:

## Answer Area

### Scenario

Define system-generated replenishment suggestions for up to a specified number of days.

Specify the delivery past due threshold.

## QUESTION 12

You need to configure the smartboards. What should you create?

- A. price groups
- B. a new product master for each variation
- C. a bill of material (BOM) version
- D. D. variants by using the variant suggestions tool

Correct Answer: D

School of Fine Art agrees to purchase a new line of smartboards from a vendor. The agreed-upon smartboard purchase prices will have a cost price per 55-inch, 75-inch, or 85- inch.

Predefined product variants

Example scenario: Create predefined product variants This example scenario shows how to create product variants for a product master using a combinations of product dimensions.

Step 1: Create a product master

Step 2: Add product dimensions

Step 3: Generate product variants

To generate product variants:

With your new product master still open, select Product variants on the Action Pane.

Select Variant suggestions on the Action Pane.

The system generates a list with all possible combinations of the sizes and colors you defined for the product. Select all on the toolbar. In this example, select all of the possible variants. If you only want to use a subset of the possible

product dimension combinations, select only the required check boxes as needed.

Select Create.

Select Save.

---

### QUESTION 13

A manufacturing company uses Dynamics 365 Supply Chain Management.

The procurement manager updates the minimum stock levels by using the safety stock journal. The manager encounters a setup error while calculating the proposal for the minimum inventory level by using the service level option.

You need to identify the cause of the error.

What is the cause of the error?

- A. The Multiplication factor value was left blank.
- B. Safety stock journal lines were created by including the current month's transactions.
- C. The Use the calculated minimum quantity as the new minimum quantity option was not used.
- D. The Lead time margin value was left blank.
- E. The Calculate standard deviation option was not used while creating the journal lines.

Correct Answer: E

Reference: <https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/safety-stock-journal>
